PROJECTS

Welp

[Live Site](#) | [Github](#)

A Yelp-inspired web-app where users can search local businesses and look at reviews of those businesses.

- Constructed a map utilizing Google Map API to display business locations for improved user experience.
- Leveraged Rails model validations and React-Router-DOM to authenticate which pages users can view.
- Incorporated CSS3 flexbox for an appealing website layout.

Whee get Threes

[Live Site](#) | [Github](#)

A JavaScript game inspired by Threes, a game where users move tiles on a board to merge the tiles increasing the tile number.

- Implemented Object Oriented Programming to optimize code readability.
- Incorporated prototypal inheritance for game functionality to create DRY code.

SKILLS

React.js, Ruby on Rails, Ruby, RSpec, JavaScript, jQuery, Redux, SQL, Git, HTML5, CSS3

EXPERIENCE

Staff Accountant II

Adventist Healthcare

May 2016 - Oct 2018

- Managed accounts of Rehab business unit through analysis of monthly balance sheet and income statement. Worked to create a streamlined financial package to lead monthly meetings with fiscal leader.
- Assisted in the implementation of the new ERP (Workday) system by building Workday reports to be utilized by all 4 major hospital teams.
- Reorganized internal lease management files, increasing ease and efficiency of lease yearly budget planning.

EDUCATION

App Academy (Fall 2018)

- Teaches full-stack web development: Rails, SQL, JS, React, TDD, algorithms, design patterns, and programming best practices.
- Rigorous 1000-hour software development course with <3% acceptance rate

University of Maryland, College Park (Spring 2015)

- BS - Accounting
- Graduated with University Honors Gemstone Citation
